System of export levy on fish products
which Iceland may retain

Icelandic Law No. 4 of 28 February 1966 as amended by Laws Nos. 79 of 31 December 1968, 73 of 1 June 1970, 4 of 30 March 1971 and 17 of 4 May 1972, concerning export levy on fish products

Article 1

A levy shall be applied to exports of Icelandic fish products specified in this Law.

Fish caught by fishing vessels registered in Iceland shall be considered as Icelandic products even if such fish is caught outside Icelandic fishing limits and not processed ashore.

Article 2

In accordance with this Law, the export levy on fish products shall be applied as follows:

1. A levy of 2,300 Icelandic Crowns per ton shall be applied to exports of frozen fish fillets, frozen fish roes, salted whitefish, salted fish fillets, belly of salted cod, salted fish roes not elsewhere specified, salted fish bits, salted and frozen fish tongues, stockfish, dried fish heads, shellfish and preserved fish products in hermetic containers.

Should the levy applied under this Article exceed 4-5% of the fob value of the fish products in question, the Ministry of Fisheries may decide to abolish the part of the levy which is in excess thereof.

2. A levy of 3% of the fob value shall be applied to exports of whole frozen fish, frozen fish waste, frozen Norway lobster, frozen shrimp, frozen capelin, capelin meal, capelin oil and hydrogenated oils and fats from fish or marine mammals.

3. A levy of 5% of the fob value shall be applied to exports of whale products other than preserved in hermetic containers.

4. A levy of 6% of the fob value shall be applied to exports of fish meal, redfish meal, Norway lobster meal, shrimp meal, liver meal, codliver oil, redfish oil, whole frozen herring, frozen herring fillets, salted herring, salted herring fillets, salted lumpfish roes and other fish products not specified in this Article.

500 Icelandic Crowns per 100 kg of contents may be deducted from the fob value of salted herring and salted lumpfish roes to cover packing costs.

5. A levy of 7% of the fob value shall be applied to exports of fresh and chilled fish.

The Ministry of Fisheries may, however, decide that the levy on fresh or chilled herring shall be equal to that which would have been applicable had the herring been processed in Iceland by the same method as is to be used abroad (see points 4 and 6 of this Article).

6. A levy of 8% of the fob value shall be applied to exports of herring meal, herring solubles and herring oil.

7. Seal products are not subject to the export levy.

For the purposes of point 1, uncooked preserved products in hermetic containers shall mean uncooked preserved products ready for consumption in hermetic containers of 10 kg net or less. Fully processed uncooked products in larger containers shall also be regarded as uncooked preserved products in hermetic containers if the exporter supplies proof that the value of the unprocessed product is less than one-third of the export value of the exported products.

Where Icelandic vessels sell, in foreign ports, fresh or processed fish products caught by their own or other vessels and subject to this levy, the said levy shall be applied on the gross value of such sales, less customs duties and other unloading and sales charges, in accordance with rules issued by the Ministry of Fisheries.

The Treasury shall collect the export levy in accordance with the provision of Article 2, and the receipts shall be distributed as follows:

- | | | |
|----|---|--------|
| 1. | For payments of insurance premiums for fishing vessels in accordance with rules issued by the Ministry of Fisheries | 82-0 % |
| 2. | To the Fisheries Loan Fund of Iceland | 11-4 % |
| 3. | To the Fisheries Fund | 3-1 % |
| 4. | To the building of vessels for ocean and fishery research | 1-8 % |
| 5. | For the building of Fisheries Research Institutes | 0-7 % |
| 6. | To the Federation of Icelandic Fishing Vessel Owners | 0-5 % |
| 7. | To seamen's unions in accordance with rules issued by the Ministry of Fisheries | 0-5 % |

Payment of the insurance premiums for fishing vessels referred to in item 1 may be subject to the condition that the insurance company concerned be a member of the Underwriters' Reinsurance Union and be required to apply certain rules concerning calculation of premium rates, insurance terms and hull values.

Whalers may be exempted from these conditions and are then entitled to reimbursement of their contribution to the Fishing Vessels' Insurance Fund instead of the insurance premiums.

Article 4

The levy provided for in Article 2, points 2, 3 and 4, shall be applied to the selling price of the products, including packing, fob vessels in the first port of landing. The value of the products sold cif or under other terms, shall be adjusted to the fob valued in accordance with rules issued by the Ministry of Trade.

Where unsold products are exported the export levy provided for in Article 2, points 2, 3 and 4 shall be calculated on the basis of the minimum export price stipulated in the export licence.

If the exporter supplies proof, within 6 months of the date shown on the bill of lading, that the price of an unsold fish product, as determined by the competent authority, is higher than the actual selling price, the Ministry of Finance shall refund the difference, subject to confirmation by the Ministry of Trade that sale at the lower price has been approved.

The levy provided for in Article 2, point 1 shall be applied to the net weight of the sold product, which must be indicated in the export documents.

Article 5

The export levy falls due as soon as a ship has been cleared for sailing or before landing, should customs clearance not be required. The Ministry of Fisheries may, however, authorize the shipper to pay the dues when he receives the foreign currency, provided that the transaction is carried out through an Icelandic bank and that he gives the Customs Authorities a promissory note, representing the exchange value of the sum due.

Article 6

Shippers of products covered by the provisions of this Law shall submit to the competent authority before a ship is cleared for sailing or before landing a duplicate or a certified copy of the bill of lading or other shipping documents, an export declaration, an invoice and, if required, a certificate of inspection, together with an export licence. If no export document has been issued, the shipper shall make a declaration regarding the quantity being shipped.

The provisions of this Article concerning the shipper shall also apply to the master of the ship, in the event of absence of or negligence by the shipper, and to the shipbrokers.

The levy shall be applied on the basis of the information contained in the documents mentioned in this Article.

The ship and its cargo shall constitute surety for payment of the export levy.

Article 8

The competent authorities shall draw up a statement of export levies collected under the provisions of this Law in accordance with the instructions given by the Ministry of Finance and the rules relating to public accounts.

Article 9

Any infringement of this Law is liable to a fine unless another law provides for a stricter penalty. Moreover, any shipper, ship's master or shipbroker found guilty of giving incorrect information about a ship's cargo shall pay triple the export levy in respect of which the fraud was attempted.

The fines shall be paid to the Treasury.

Should the competent authorities suspect that the documents referred to in Article 6 are incorrect, they shall inspect the ship's cargo before shipment or landing, or shall by some other means obtain the documents necessary for this purpose.

Article 10

Infringements of this Law shall be tried under the provisions of the law governing criminal procedure.

The Government shall be authorized to apply levies on the net weight of the products specified in Article 2, point 1 of this Law in accordance with Article 9 of Law No. 77 of 28 April 1962 on the Fisheries Catch Equalization Fund and Article 9 Act No. 42 of 9 June 1960 on Fresh Fish Inspection.

Article 12

The Ministry of Fisheries may issue a regulation laying down further directives concerning the application of this Law.

Article 12 of the Agreement shall apply to Switzerland and Liechtenstein with regard to State monopolies concerning salt and gunpowder and to the Icelandic monopoly on fertilizers only to the extent that these States will have to fulfil corresponding obligations under the Agreement between the EFTA States and the European Communities and its Member States on a European Economic Area.

Article 12 shall be applicable at the latest from 1 January 1995 in the case of the Austrian monopoly on salt.

PROTOKOLL D

som avses i artikel 12 punkt 1

Artikel 12 i avtalet skall tillämpas på Schweiz och Liechtenstein beträffande monopol för salt och krut och på det isländska monopolet för gödselmedel endast i den utsträckning dessa länder blir tvungna att uppfylla motsvarande skyldigheter enligt avtalet mellan EFTA-staterna och Europeiska gemenskaperna och dess medlemsstater om ett europeiskt ekonomiskt samarbetsområde.

Artikel 12 skall tillämpas senast fr.o.m. den 1 januari 1995 i fråga om det österrikiska monopolet för salt.

REFERRED TO IN ARTICLE 13Article 1

The EFTA States and Hungary shall notify each other at the earliest practicable stage, of draft technical regulations and draft amendments thereto, which they intend to issue.

Article 2

1. The notification shall:
 - (a) include the full text of the draft technical regulation both in the original language and in a full translation or a summary into English;
 - (b) indicate whether the draft technical regulation is identical with a technical specification in the subject matter concerned, worked out by an international or regional body, or whether it deviates from such specifications; when deviating from such specifications the reasons for the deviations shall be given;
 - (c) state the name and address of the national authority competent to give further information on the regulation;
 - (d) include the envisaged date of entry into force.
2. Where a draft technical regulation merely transposes the full text of an international or European standard, information regarding the relevant standard shall suffice.

Article 3

Any State, Party to this Agreement, may ask for further information on a draft technical regulation notified in accordance with this procedure.

Article 4

The exchange of notifications between the States, Parties to this Agreement, shall take place through the EFTA Secretariat.

Through the EFTA Secretariat, any State, Party to this Agreement, may make comments on the drafts communicated.

Article 5

The time-limit for comments on notifications shall be three months from the date of receipt by the EFTA Secretariat of the text of the draft regulation. During this period the draft technical regulation may not be adopted.

Article 6

An additional notification shall indicate to what extent it has been possible to take account of any comments received from the States, Parties to this Agreement, any change of substance made as compared with the notified draft, as well as the date of entry into force of the regulation.

Article 7

The standstill period of three months shall however not apply when for urgent reasons relating to the protection of public health or safety, the protection of health and life of animals or plants, the competent authorities are obliged to prepare technical regulations in a very short period of time in order to enact or introduce them immediately without any consultations being possible. The reasons which warrant the urgency of the measures taken shall be given.

Artikel 1

EFTA-staterna och Ungern skall underrätta varandra, på tidigast möjliga stadium, om förslag till tekniska föreskrifter och ändringar i dessa, som de avser att utfärda.

Artikel 2

1. Notifikationen skall

a) omfatta den fullständiga texten i förslaget till teknisk föreskrift både på originalspråk och i fullständig översättning eller med ett sammandrag på engelska,

b) ange om förslaget till teknisk föreskrift är identiskt med någon teknisk specifikation som i ifrågavarande ämne utarbetats av ett internationellt eller regionalt organ, eller om det avviker från sådana specifikationer; när det avviker från dessa, skall orsaken till avvikelsen anges,

c) ange namn och adress på den behöriga nationella myndighet som kan ge närmare information om föreskriften,

d) omfatta beräknad dag för ikraftträdandet.

2. När ett förslag till teknisk föreskrift endast överför den fullständiga texten i en internationell eller europeisk standard, skall information om den relevanta standarden vara tillräcklig.

Artikel 3

Varje avtalslutande stat får begära ytterligare information om ett förslag till teknisk föreskrift som notifierats i enlighet med denna procedur.

Artikel 4

Utbyte av notifikationer mellan de avtalslutande staterna skall ske genom EFTA-sekretariatets försorg.

Genom EFTA-sekretariatets försorg får varje avtalslutande stat lämna kommentarer till de överlämnade förslagen.

Artikel 5

Fristen för kommentarer till notifikationerna skall vara minst tre månader från den dag EFTA-sekretariatet mottog texten till förslaget. Under denna period får förslaget till teknisk föreskrift inte antas.

Ytterligare en notifikation skall ange i vilken utsträckning det varit möjligt att ta hänsyn till mottagna kommentarer från de avtalsslutande staterna, ändringar i sak som gjorts i förhållande till det notifierade förslaget samt dagen för föreskriftens ikraftträdande.

Artikel 7

Status quo-perioden på tre månader skall emellertid inte vara tillämplig, när de behöriga myndigheterna av tvingande skäl, som rör skyddet av allmänhetens hälsa eller säkerhet och skyddet av djurs eller växters liv och hälsa, skyndsamt måste utarbeta tekniska föreskrifter i syfte att anta och införa dem omedelbart utan att samråd blir möjligt. De skäl som motiverat det brådskande agerandet skall anges.

Artikel 8

De avtalsslutande staterna skall, inom ramen för detta avtal, hålla regelbundna konsultationer för att garantera att proceduren fungerar tillfredsställande.

Artikel 9

I denna bilaga förstås med

(a) "teknisk specifikation": en specifikation som förekommer i ett dokument som fastställer vilka karakteristika som krävs för en vara, såsom kvalitetsnivå, prestanda, säkerhet eller dimensioner, inklusive de krav som skall tillämpas på varan vad beträffar terminologi, symboler, provning och provningsmetoder, förpackning, märkning och etikettering,

b) "teknisk föreskrift": tekniska specifikationer, inbegripet tillämpningen av administrativa bestämmelser som är rättsligt eller i praktiken tvingande vid marknadsföring eller användning i en avtalsslutande stat eller i en betydande del av en sådan stat, med undantag för bestämmelser som fastställts av lokala myndigheter,

c) "förslag till teknisk föreskrift": texten till en teknisk specifikation inklusive administrativa bestämmelser, som utarbetats i syfte att anta eller att slutligen låta anta som teknisk föreskrift och som är på ett sådant förberedande stadium att ändringar ännu kan göras,

d) "vara": alla varor som täcks av detta avtal.

The EFTA States and Hungary agree that the application of Article 20 shall be guided by the following criteria:

- (a) Only those measures can be classified as State aid which result in a net transfer of funds from State sources to the recipient through direct subsidies or which result in tax revenues foregone through tax concession; aid granted under schemes which are fully paid for by the beneficiaries are not State aid in the sense of Article 20; when assessing effects of State aid, the cumulative effects of all types of aid measures awarded to recipients are to be taken into consideration.
- (b) The following measures, in general fall outside, the scope of Article 20 :
 - (i) credits and loans from State sources or agencies, if the interest and capital repayments are in accordance with current market conditions;
 - (ii) guarantees given by States or State agencies, if the premiums cover the long-term cost of the scheme;
 - (iii) equity injections by States or State agencies if the rate of return on such investments can reasonably be expected to be at least equal to the cost of State borrowing;
 - (iv) tax measures including social security charges that are part of the general national income norm for tax purposes, available to all enterprises, and uniformly applied in a country.
- (c) The following measures are examples of types of aid normally consistent with the provisions of Article 20:
 - (i) aid to research, development and innovation, provided it is clearly intended for the stimulation of such activities and that such activities are at a pre-competitive level; the pre-competitive level is understood to include applied research and development up to and including the development of a first prototype; such aid may be awarded up to a rate of 50 per cent of project costs

or at differentiated tax rates of equivalent effect; basic research may be aided to a greater extent; the closer the market place a project is, the lower the degree of subsidizations should be;

- (ii) aid given to sectors with problems of overcapacity to rationalize the structure of industry by ensuring an orderly downscaling of production and employment; such measures should strictly be limited in duration and be accompanied by an adjustment programme; when evaluating problems of overcapacity the international situation as a whole and not merely in the country in question is to be taken into account;
- (iii) general aid to export promotion such as national weeks, store promotion, industrial fairs, provided that such aid is not company-specific;
- (iv) regional development aid to the extent that it does not interfere with conditions of fair competition; its purpose must be to put industries in regional development areas on an equal economic footing with industries in other parts of the country and not to increase capacity in sectors already suffering from problems of overcapacity; the definition of regional development areas, including areas in industrial decline, lies within the sole competence of the States, Parties to this Agreement, which may be requested to furnish statistics detailing the reasons for the designation of such areas;
- (v) the aid in form of general public services to trade and industry on terms and conditions not favouring certain sectors and enterprises;
- (vi) general aid for the creation of new employment opportunities provided such jobs are not in sectors already suffering from overcapacity;
- (vii) environmental aid, under the general principle that the polluter-pays-principle is observed; investment specifically designated to reduce pollution may be aided up to a rate of 25 per cent or at differentiated tax rates of equivalent effect; recognizing the existence of different qualities of legislation or standards in other countries and their

potential impact on trade and competition, the degree of subsidizations for specific industries shall be kept under constant review;

(viii) aid to small and medium-sized enterprises if intended to offset disadvantages directly linked to the size of the firm in question, such enterprises being understood as employing not more than 100 people and having an annual turnover of less than 10 million ECUs.

(d) The following measures are examples of types of aid normally not consistent with Article 20 :

- (i) aid to set against operating losses of enterprises, either directly or through the foregoing of payments due to public authorities;
- (ii) the injection of equity capital in firms if it has the same effect as to set aid against operating losses;
- (iii) aid to production in problem sectors suffering from the structural overcapacity or to enterprises in difficulties if not accompanied by an adjustment programme and strictly limited in duration;
- (iv) aid given as a rescue measure to specific firms if not given merely to provide time for the development of long-term solutions and to avoid acute social problems;
- (v) aid measures, including indirect taxes, that are applied in such a way as to discriminate in favour of domestically- produced goods and against like goods produced in another State, Party to this Agreement;
- (vi) the forms of aid to exports of goods to other States, Parties to this Agreement as described in the Appendix to this Annex.

ILLUSTRATIVE LIST OF FORMS OF EXPORT AID REFERRED TO IN
ANNEX XV (d) (vi)

- (a) Currency retention schemes or any similar practices which involve a bonus on exports or re-exports.
- (b) The provision by governments of direct subsidies to exporters.
- (c) The remission, calculated in relation to exports, of direct taxes or social welfare charges on industrial or commercial enterprises.
- (d) The exemption, in respect of exported goods, from charges or taxes, other than charges in connection with importation or indirect taxes levied at one or several stages on the same goods if sold for internal consumption, or the payment, in respect of exported goods, of amounts exceeding those effectively levied at one or several stages on these goods in the form of indirect taxes or of charges in connection with importation or in both forms.
- (e) In respect of deliveries by governments or governmental agencies of imported raw materials for export business on different terms than for domestic business, the charging of prices below world prices.
- (f) In respect of government export credit guarantees, the charging of premiums at rates which are manifestly inadequate to cover the long-term operating costs and losses of the credit insurance institutions.
- (g) The grant by governments (or special institutions controlled by governments) of export credits at rates below those which they have to pay in order to obtain the funds so employed.
- (h) The government bearing all or part of the costs incurred by exporters in obtaining credit.

Om tillämpning av artikel 20

EFTA-staterna och Ungern är överens om att man vid tillämpningen av artikel 20 skall vägledas av följande kriterier:

a) Som statsstöd kan endast klassas åtgärder som resulterar i en nettoöverföring av offentliga medel till mottagaren genom direkta subventioner eller genom att det offentliga avstår från skatteintäkter genom skatteförmåner; stöd som ges inom program som helt betalas av mottagarna är inte statsstöd enligt artikel 20; när verkningarna av statsstöd bedöms skall hänsyn tas till de kumulativa effekterna av alla slags stödåtgärder till mottagarna.

b) Följande åtgärder faller i allmänhet utanför det område som täcks i artikel 20:

- i) krediter och lån från statliga källor eller organ, om ränta och amorteringar överensstämmer med rådande villkor på marknaden,
- ii) garantier som ges av staten eller statliga organ om premierna täcker de långsiktiga kostnaderna för programmet,
- iii) kapitaltillskott från stater eller statliga organ om avkastningen på sådana investeringar rimligen kan väntas motsvara minst statens lånekostnader,
- iv) skatteåtgärder inklusive socialförsäkringsavgifter som är en del av den allmänna nationella inkomstnormen för skatteändamål, tillgängliga för alla företag, och tillämpade på ett enhetligt sätt i ett land.

c) Följande åtgärder är exempel på stödformer som normalt är förenliga med bestämmelserna i artikel 20:

- i) stöd till forskning, utveckling och förnyelse, under förutsättning att det är klart avsett att stimulera sådana verksamheter och att dessa befinner sig på utvecklingsstadiet; med utvecklingsstadiet avses tillämpad forskning och utveckling upp till och med framställningen av en första prototyp; sådant stöd får ges till ett belopp av högst 50 procent av projektkostnaderna eller genom differentierade skattesatser med motsvarande verkan; grundforskning får ges stöd i större utsträckning; ju närmare marknaden ett projekt befinner sig desto lägre måste stödnivån vara,
- ii) stöd till sektorer med överkapacitetsproblem för strukturrationalisering genom att säkra en nedskärning av produktion och selsättning i rimlig takt; sådana åtgärder skall begränsas strikt i tiden och åtföljas av ett anpassningsprogram; när överkapacitetsproblem bedöms skall hänsyn tas till det internationella läget i dess helhet och inte bara till läget i landet i fråga,
- iii) generellt stöd till exportfrämjande, som tex nationella veckor, marknadsföring, industrimässor, under förutsättning att sådant stöd inte är företagsspecifikt,

- iv) regionalt utvecklingsstöd i den utsträckning det inte stör sunda konkurrensvillkor; dess syfte måste vara att ge industrier inom regionala utvecklingsområden likartade villkor som industrier i andra delar av landet och inte att öka kapaciteten inom sektorer som redan har problem med överkapacitet; endast de avtalslutande staterna har befogenhet att ange gränserna för regionala utvecklingsområden inklusive industriellt tillbakagående områden; de kan anmodas att lämna statistik som specificerar enligt vilka kriterier sådana utvecklingsområden har avgränsats,
 - v) stöd i form av allmän offentlig service till handel och industri på villkor som inte gynnar vissa branscher och företag,
 - vi) allmänt stöd för att skapa nya arbetstillfällen under förutsättning att dessa inte tillhör branscher inom vilka det råder överkapacitet,
 - vii) miljöstöd som utgår från den allmänna principen att den som är ansvarig för miljöförstöring skall betala; investeringar som är specifikt avsedda att reducera miljöförorening kan ges stöd till ett belopp av högst 25 procent eller genom differentierade skattesatser med motsvarande verkan; med tanke på att lagstiftning och standarder har skiftande kvalitet i andra länder och att de har en potentiell inverkan på handel och konkurrens skall graden av stöd till enskilda industrier löpande ses över,
 - viii) stöd till små och medelstora företag som syftar till att motverka nackdelar som är en direkt följd av storleken på företaget i fråga; här avses företag som sysselsätter högst 100 personer och med en årlig omsättning på mindre än 10 miljoner ecu.
- d) Följande åtgärder är exempel på stödformer som normalt inte är förenliga med artikel 20:
- i) stöd för att täcka driftunderskott i företag, antingen direkt eller genom att de befrias från betalningar till offentliga myndigheter som åligger dem,
 - ii) kapitaltillskott till företag om det har samma effekt som stöd för att täcka driftunderskott,
 - iii) stöd till produktion inom problembanscher där strukturell överkapacitet råder eller till företag i svårigheter om stödet inte åtföljs av ett anpassningsprogram och har en strikt begränsad varaktighet,
 - iv) stöd för att undsätta enskilda företag om det inte ges enbart för att vinna tid för att utveckla långsiktiga lösningar och undvika akuta sociala problem,
 - v) stödåtgärder, inklusive indirekta skatter, som tillämpas på sådant sätt att de diskriminerar varor som producerats hos annan avtalslutande stat till förmån för inhemskt tillverkade varor,
 - vi) olika former av stöd till export av varor till andra avtalslutande stater enligt vad som anges i appendix.

Illustrativ lista över former av exportstöd angivna i bilaga XV (d) (vi)

a) System, varigenom exportör får föfoga över del av intjänad valuta, eller liknande förfarande innebärande premiering av export eller reexport.

b) Direkta statliga subventioner till exportörer.

c) Åtgärder, varigenom industri- eller handelsföretag befrias från direkta skatter eller sociala avgifter i förhållande till verkställd export.

d) Undantag, vid export av varor, från avgifter eller skatter andra än avgifter i samband med import eller indirekta skatter som erläggs i ett eller flera led för samma slags varor vid försäljning för inhemsk förbrukning eller utbetalning, vid export av varor, av belopp som överstiger vad som faktiskt erlagts i ett eller flera led på dessa varor i form av indirekta skatter och/eller av avgifter i samband med import.

e) Debitering av lägre priser än världsmarknadspriserna i fall då statliga myndigheter eller organ vid sina leveranser av importerade råvaror tillämpar olika villkor beroende på om leveranserna avser exportändamål eller inhemsk förbrukning.

f) Tillämpning av sådana premiesatser vid statlig exportkreditgarantivning, som är uppenbart otillräckliga för att täcka kreditförsäkringsinstitutens kostnader och förluster på längre sikt.

g) Beviljande genom statliga myndigheter (eller särskilda institutioner under statlig kontroll) av exportkrediter till lägre ränta än myndigheterna (eller institutionerna) själva får erlagga för att anskaffa motsvarande kapital.

h) Åtgärder innebärande att staten helt eller delvis svarar för kostnader, som exportörer ådrar sig i samband med anskaffande av krediter.

CONCERNING THE TREATMENT THAT MAY BE APPLIED BY
LIECHTENSTEIN AND SWITZERLAND
TO IMPORTS OF CERTAIN PRODUCTS SUBJECT TO
THE SCHEME FOR BUILDING UP COMPULSORY RESERVES

Liechtenstein and Switzerland may subject to a scheme of compulsory reserves products which are indispensable for the survival of the population, and in the case of Switzerland for the army, in times of serious supply shortages and the production of which in Liechtenstein and Switzerland is insufficient or non-existent and the characteristics and nature of which enable reserves to be built up.

Liechtenstein and Switzerland shall apply this scheme in a manner that does not involve discrimination, direct or indirect, between the products imported from the other States, Parties to this Agreement, and like or substitute national products.

GEMENSAM DEKLARATION AV EFTA-STATERNA OCH UNGERN ANGÅENDE UTVIDGNINGEN AV URSPRUNGSREGLERNA

SÖ 1993:63

EFTA-staterna och Ungern är överens om att undersöka möjligheterna att ytterligare utvidga och förbättra ursprungsreglerna, inbegripet kumulation, i syfte att öka och främja produktionen och handeln inom Europa.

RECORD OF UNDERSTANDINGS
RELATING TO THE AGREEMENT BETWEEN
THE EFTA STATES AND THE REPUBLIC OF HUNGARY

1. The EFTA States and Hungary recognize that there is a certain parallelism between the levels of concessions regarding tariffs, quantitative restrictions, charges and measures having equivalent effect at the entry into force of the free trade Agreement EFTA States-Hungary and the Agreement establishing an Association between Hungary and the European Communities. The EFTA States and Hungary further recognize that this parallelism should basically be maintained during the whole transitional period. The possibility of applying such parallelism to concessions exchanged under special conditions will be considered in the Joint Committee.

2. The States, Parties to this Agreement, have taken note that under the Agreement concluded between the EFTA States and the European Communities on the European Economic Area, obstacles to trade in certain industrial goods will be further decreased and free trade will be extended to some new products. After the entry into force of that Agreement, the possibility of liberalizing trade in these products in the trade between the States, Parties to this Agreement, will be examined in the Joint Committee, which will decide on corresponding adjustments to the relevant Annexes of this Agreement, taking into account any concessions exchanged under special conditions between the EFTA States and the European Communities. The EFTA States declare their readiness to discuss in the Joint Committee further liberalization of trade in goods if such liberalization were to occur in the relations between the EFTA States and the European Communities.

3. The EFTA States and Hungary agree that the provisions in Article 23 of Protocol B shall not apply until 1 January 1994. On the request of a State, Party to this Agreement, consultations should be held regarding any negative effect resulting from this derogation with the aim of reaching a satisfactory solution. This derogation, including the possibility of consultation, shall be prolonged by the Joint Committee on condition that the present practice applied between Hungary and the European Communities is not changed.

4. The EFTA States and Hungary agree to closely co-ordinate their efforts in training those concerned with the use of the simplified procedure laid down in Protocol B with regard to the issue, control and verification of evidence of origin, in order to enable them to be authorized to use this procedure. The simplified procedure shall be used in a restricted way and its implementation be subject to deliberations in the Sub-Committee on origin and customs matters.

5. Hungary shall notify the EFTA States of all the arrangements made to establish the administrative co-operation between Hungary, the Czech Republic, Poland and the Slovak Republic for the implementation of Protocol B and of changes thereto.

6. With regard to goods exported from an EFTA State for processing (outward processing) in Hungary and processed there (inward processing), or vice versa, the States, Parties to this Agreement, declare their readiness to discuss, as soon as possible, arrangements under which

- such goods would be admitted free of customs duties into Hungary or an EFTA State, as the case may be, for processing, subject to re-exportation;
- the products obtained from such processing would be admitted totally or partly free of customs duties and charges having equivalent effect on importation into an EFTA State or Hungary, as the case may be.

7. The States, Parties to this Agreement, have taken note of the unilateral declaration by Hungary in the Agreement establishing an Association between Hungary and the European Communities that the value of customs duty-free imports into Hungary from the European Communities from 1 January 1994 will amount to at least 25 per cent of total industrial imports from the European Communities. Should Hungary, in order to fulfil this undertaking, add new products to the list of duty-free items, Hungary will, to the extent possible, take the trade interests of EFTA States into account when selecting such products. The Joint Committee shall decide on corresponding adjustments to the relevant Annexes to this Agreement, taking into account any concessions exchanged under special conditions between Hungary and the European Communities, as referred to in paragraph 1.

8. The States, Parties to this Agreement, have taken note that in accordance with Annex VIa to the Agreement establishing an Association between Hungary and the European Communities, Hungary shall, starting on 1 January 1995 and up to 31 December 1997, eliminate quantitative restrictions on imports originating in the European Communities of products still subject to such restrictions at 31 December 1994, up to an amount of 40 per cent of such imports into Hungary from the European Communities on the basis of last available annual statistics. Should products be deleted from Annex VIa to the Agreement establishing an Association between Hungary and the European Communities, Hungary will, to the extent possible, take into account the trade interests of the EFTA States. The Joint Committee shall decide on corresponding adjustments to the relevant Annexes to this Agreement, taking into account any concessions exchanged under special conditions between Hungary and the European Communities, as referred to in paragraph 1.

9. Starting on 1 January 1998 and up to 31 December 2000 at the latest, Hungary shall eliminate all remaining quantitative restrictions relating to products contained in Annex IX to this Agreement.
10. In case any textile or clothing item imported into Hungary will be subject to quota arrangements as a result of negotiations between Hungary and the European Communities, Hungary is prepared to enter into negotiations on this subject with the interested EFTA States.
11. The right of Iceland to retain customs duties of a fiscal nature as set out in Table I of Protocol C, in accordance with Article 7, should not result in a less favourable treatment for Hungary as regards the products specified in that Table, than that accorded by Iceland to the European Economic Community.
12. The EFTA States and Hungary agree that measures referred to in Article 11 of this Agreement for the protection of the environment may be applied to the extent permitted under Article XX of the General Agreement on Tariffs and Trade and any other relevant instruments negotiated under its auspices which are applicable between the States, Parties to this Agreement, and to the extent permitted under the Agreement establishing an Association between Hungary and the European Communities.
13. Hungary may apply restrictions in the sense of paragraph 3 of Article 16 only to the extent permitted according to its agreement under the IMF.
14. In defining categories of entities to be covered by Article 17 the States, Parties to this Agreement, will be guided by the definitions of the European Communities.
15. For the purpose of interpreting Article 20, paragraph 3, the States, Parties to this Agreement, agree that the term "higher intensity" refers to the level of aid granted by way of measures contained in Annex XV, paragraph (c) and that the application of normally inconsistent measures under paragraph (d), applied with a view to promoting the restructuring of Hungary's economy, shall be considered as not being inconsistent with Article 20, paragraph 1, provided that such measures are compatible with the rules on State aid in the Agreement establishing an Association between Hungary and the European Communities, as implemented under the rules referred to in Article 62, paragraph 3 of the said Agreement.
16. With regard to Article 20, paragraph 3, the Joint Committee shall decide on prolongation by further periods of five years of the application of that paragraph, provided that the Hungary/EC Association Council takes a similar decision as referred to in Article 62, paragraph 4(a) of the Agreement establishing an Association between Hungary and the European Communities.

17. The EFTA States and Hungary agree that the provisions of Article 20, paragraph 6 of this Agreement should be implemented in the same manner and for as long as applicable under Article 62, paragraph 6, second sub-paragraph, of the Agreement establishing an Association between Hungary and the European Communities.

18. The EFTA States and Hungary agree that in cases where the imports into the territory of a State, Party to this Agreement, of a textile product originating in the other State, Party to this Agreement, take place under the conditions and cause the damage defined in Article 8, paragraph 2 of the Additional Protocol to the Europe Agreement on Trade in Textile Products between the Republic of Hungary and the European Economic Community, the EFTA States or Hungary, as the case may be, may resort to the safeguard mechanism provided for by the said Article and in accordance with the procedure laid down in Article 26 of this Agreement.

For the purpose of this Understanding, appropriate measures may consist of

- (a) the temporary reintroduction of the basic duty referred to in Article 5 of this Agreement or the actual MFN duty, whichever the lower, on imports exceeding a level which in no case may be lower than 110 per cent of the level of the importing State Party's imports during the twelve-month period terminating two months, or where data is not available three months, preceding the month in which the request for consultation is made, of the product in question originating in the other State Party,

or

- (b) the imposition by Hungary of a quantitative restraint the limit of which may in no case be lower than 110 per cent of the level of Hungary's imports during the twelve-month period terminating two months, or where data is not available three months, preceding the month in which the request for consultation is made, of the product in question originating in the other State Party.

In no case may the aforementioned safeguard mechanism be invoked, or the measures taken pursuant to it be applied, after the period for the elimination of all quantitative restrictions and measures of equivalent effect on textile trade between Hungary and the European Economic Community, laid down in the said Protocol between Hungary and the European Economic Community, has elapsed.

The EFTA States and Hungary furthermore agree that in no case shall non-tariff barriers be applied in trade in textile products between the EFTA States and Hungary after the transitional period referred to in Article 1 of this Agreement.

At the request of either State, Party to this Agreement, consultations will take place without delay on any problem arising from trade in textile and clothing products.

19. If there is a disagreement with regard to the actual value of imports of industrial products referred to in Article 23, paragraph 3, international trade statistics such as those of UN/ECE, GATT and OECD will serve as a basis.

20. The EFTA States and Hungary consider that an arbitration procedure could be envisaged for disputes which cannot be settled through consultations between the States Parties concerned or in the Joint Committee. Such a possibility, inter alia, regarding Article 19, will be further examined in the Joint Committee.

21. The States, Parties to this Agreement, in accordance with the General Agreement on Tariffs and Trade, in particular Article I, and its Protocols, Annexes and related Agreements which are applicable between the States, Parties to this Agreement, shall ensure as from the entry into force of this Agreement that measures are not applied in a discriminatory way vis-à-vis any State, Party to this Agreement, concerning all conditions, rules and formalities in connection with imports and exports, including import licensing procedures.

22. Taking into account developments in other international fora and in their respective relations with the European Communities and in view of the growing importance of areas closely related to trade in goods, the EFTA States and Hungary will periodically discuss, in an appropriate forum among the States Parties concerned, possibilities to extend their economic relations to areas beyond trade in goods. The States, Parties to this Agreement, will immediately notify each other of developments in this field, having occurred in particular in their relations with the European Communities.

DONE at Geneva, this 29th day of March 1993, in a single authentic copy in the English language which shall be deposited with the Government of Sweden. The Depository shall transmit certified copies to all Signatories.

Samförståndsprotokoll avseende avtalet mellan EFTA-staterna och Ungern

1. EFTA-staterna och Ungern erkänner att det vid ikraftträdandet av frihandelsavtalet EFTA-staterna-Ungern och avtalet om upprättande av en association mellan Ungern och Europeiska gemenskaperna föreligger en viss parallellitet mellan avtalen i vad avser medgivandenivåerna för tullar, kvantitativa restriktioner, avgifter och åtgärder med motsvarande verkan. EFTA-staterna och Ungern erkänner vidare att denna parallellitet i stort sett bör bibehållas under hela övergångsperioden. Möjligheten att tillämpa en sådan parallellitet på medgivanden som utbyttis under speciella omständigheter kommer att övervägas i Gemensamma kommittén.

2. De avtalslutande staterna har noterat att, enligt det avtal som slutits mellan EFTA-staterna och Europeiska gemenskaperna om det Europeiska ekonomiska samarbetsområdet, handelshinder för vissa industrivaror kommer att minska ytterligare och fri handel kommer att medges för ett antal nya varor. Efter det avtalets ikraftträdande kommer möjligheten att liberalisera handeln med dessa varor mellan de avtalslutande staterna att ses över i Gemensamma kommittén. Denna kommer att besluta om motsvarande ändringar i de relevanta bilagorna till detta avtal, varvid hänsyn skall tas till de medgivanden som utväxlats under speciella omständigheter mellan EFTA-staterna och Europeiska gemenskaperna. EFTA-staterna förklarar sig beredda att i Gemensamma kommittén diskutera ytterligare liberalisering av handeln med varor, om sådan liberalisering skulle ske i relationerna mellan EFTA-staterna och Europeiska gemenskaperna.

3. EFTA-staterna och Ungern är överens om att bestämmelserna i artikel 23 i protokoll B inte skall tillämpas förrän den 1 januari 1994. På begäran av en avtalslutande stat skall samråd hållas angående eventuella negativa effekter som denna avvikelse resulterat i, i syfte att nå en tillfredsställande lösning. Avvikelsen, inbegripet möjligheten till samråd, skall förlängas av Gemensamma kommittén under förutsättning att den nuvarande praxis som tillämpas mellan Ungern och Europeiska gemenskaperna inte har förändrats.

4. EFTA-staterna och Ungern är överens om att nära samordna sina ansträngningar i att utbilda de personer som skall använda det förenklade förfarande som återfinns i protokoll B angående utfärdande, kontroll och granskning av ursprungsbevis, så att de kan bli bemyndigade att utnyttja detta förfarande. Det förenklade förfarandet skall användas i begränsad omfattning och dess tillämpning skall bli föremål för överläggningar i underkommittén för ursprungs- och tullfrågor.

5. Ungern skall underrätta EFTA-staterna om alla de arrangemang som gjorts för att upprätta det administrativa samarbetet mellan Ungern, Tjeckiska republiken, Polen och Slovakiska republiken för tillämpningen av protokoll B och för ändringar i detta.

6. I fråga om varor som exporteras från en EFTA-stat för bearbetning (pas-

siv lönbearbetning) i Ungern och tillverkning där (aktiv lönbearbetning), eller omvänt, förklarar de avtalsslutande parterna sig redo att så snart som möjligt diskutera arrangemang enligt vilka

- sådana varor skulle tillåtas föras in tullfritt i Ungern eller i en EFTA-stat, allt efter omständigheterna, för bearbetning, under förutsättning att de åter-exporteras;
- produkter som är ett resultat av sådan bearbetning skulle få införas med hel eller partiell befrielse från tullar och avgifter med motsvarande verkan vid import till en EFTA-stat eller Ungern, allt efter omständigheterna.

7. De avtalsslutande staterna har noterat Ungerns unilaterala deklARATION i avtalet om upprättande av en association mellan Ungern och Europeiska gemenskaperna om att värdet av tullfri import till Ungern från Europeiska gemenskaperna från och med den 1 januari 1994 kommer att uppgå till minst 25 procent av den totala industriella importen från Europeiska gemenskaperna. Skulle Ungern, för att uppfylla detta åtagande, föra upp nya produkter på listan över tullfria artiklar kommer Ungern i möjligaste mån, att beakta EFTA-staternas handelsintressen vid urvalet av dessa produkter. Gemensamma kommittén skall besluta om motsvarande ändringar i de relevanta bilagorna till detta avtal, inbegripet de eventuella medgivanden som utväxlats under särskilda omständigheter mellan Ungern och Europeiska gemenskaperna, enligt vad som anges i punkt 1.

8. De avtalsslutande staterna har noterat att enligt bilaga VI(a) till avtalet om upprättande av en association mellan Ungern och Europeiska gemenskaperna skall Ungern, med början den 1 januari 1995 och fram till den 31 december 1997, avveckla kvantitativa restriktioner på import med ursprung i Europeiska gemenskaperna vad gäller produkter som fortfarande är föremål för sådana restriktioner den 31 december 1994, upp till ett värde av 40 procent av sådan import till Ungern från Europeiska gemenskaperna enligt senast tillgängliga årsstatistik. Skulle produkter avföras från bilaga VI(a) till avtalet om upprättande av en association mellan Ungern och Europeiska gemenskaperna kommer Ungern, i möjligaste mån, att beakta EFTA-staternas handelsintressen. Gemensamma kommittén skall besluta om motsvarande ändringar i relevanta bilagor till detta avtal, varvid hänsyn skall tas till de medgivanden som utväxlats på särskilda villkor mellan Ungern och Europeiska gemenskaperna, enligt vad som anges i punkt 1.

9. Från den 1 januari 1998 fram till den 31 december 2000 skall Ungern avskaffa alla återstående kvantitativa restriktioner som gäller produkter i bilaga IX till detta avtal.

10. Om förhandlingar mellan Ungern och Europeiska gemenskaperna resulterar i att någon textil- eller beklädnadsvara som importerats till Ungern blir föremål för kvotering är Ungern berett att ingå förhandlingar med EFTA-stater som har ett intresse för detta.

11. Islands rättighet att behålla tullar av fiskal karaktär enligt lista 1 i protokoll C, i överensstämmelse med artikel 7, bör inte resultera i en mindre

gynnsam behandling för Ungern vad beträffar de produkter som specificeras i listan, än den som Island medger Europeiska ekonomiska gemenskapen.

12. EFTA-staterna och Ungern är överens om att åtgärder som avses i artikel 11 i detta avtal om skydd för miljön kan tillämpas i den utsträckning som tillåts enligt artikel XX i Allmänna tull- och handelsavtalet och andra relevanta instrument som framförhandlats inom ramen för detta, vilka är tillämpliga mellan de avtalsslutande staterna och i den utsträckning som är tillåten enligt avtalet om upprättande av en association mellan Ungern och Europeiska gemenskaperna.

13. Ungern får tillämpa restriktioner i enlighet med punkt 3 i artikel 16 endast i den utsträckning som tillåts enligt dess överenskommelser enligt IMF.

14. Vid definiering av de slag av myndigheter som skall täckas av artikel 17 kommer de avtalsslutande staterna att vägledas av Europeiska gemenskapernas definitioner.

15. Vad avser tolkningen av artikel 20, punkt 3, är de avtalsslutande staterna eniga om att uttrycket "högre nivå" hänför sig till den stödnivå som tillkommit genom åtgärder enligt bilaga XV, punkt c) och att vidtagandet av normalt oförenliga åtgärder enligt punkt d), som tillämpas i syfte att främja omstruktureringen av Ungerns ekonomi, inte skall anses vara oförenlig med artikel 20, punkt 1, förutsatt att sådana åtgärder är förenliga med reglerna om statsstöd i avtalet om upprättande av en association mellan Ungern och Europeiska gemenskaperna, så som det tillämpas enligt de regler som anges i artikel 62, punkt 3 i nämnda avtal.

16. Vad gäller artikel 20, punkt 3, skall Gemensamma kommittén besluta om förlängning med ytterligare femårsperioder av tillämpningen av denna punkt, förutsatt att Ungern och EGs associationsråd fattat ett likartat beslut som det som anges i artikel 62, punkt 4 a) i avtalet om upprättande av en association mellan Ungern och Europeiska gemenskaperna.

17. EFTA-staterna och Ungern är överens om att bestämmelserna i artikel 20, punkt 6 i detta avtal skall genomföras på samma sätt och så länge som det är tillämpligt enligt artikel 62, punkt 6, andra stycket i avtalet om upprättande av en association mellan Ungern och Europeiska gemenskaperna.

18. EFTA-staterna och Ungern är överens om att i de fall då import till en avtalsslutande stats territorium av en textilprodukt med ursprung i en annan avtalsslutande stat sker på de villkor och förorsakar den skada som definieras i artikel 8, punkt 2 i det tilläggsprotokoll till Europaavtalet, som hänför sig till handel med textilprodukter mellan Ungerska republiken och Europeiska ekonomiska gemenskapen, har EFTA-staterna eller Ungern, alltefter omständigheterna, tillgripa den säkerhetsmekanism som anges i nämnda artikel och enligt de förfaranden som fastställs i artikel 26 i detta avtal.

Enligt denna överenskommelse, kan lämpliga åtgärder bestå i

a) tillfälligt återinförande av den bastull som anges i artikel 5 i detta avtal eller faktiska MGN-tull, beroende på vilken som är lägst, på import som överstiger en nivå som inte i något fall får vara lägre än 110 procent av den

importerande avtalsslutande statens införsel under den tolv månadersperiod som löper ut två månader eller, om statistik saknas, tre månader före den månad då begäran framförs om överläggningar avseende aktuell vara med ursprung i den andra avtalsslutande staten.

eller

b) Ungerns införande av en kvantitativ restriktion, där nivån inte i något fall får vara lägre än 110 procent av Ungerns importnivå under den tolv månadersperiod som löper ut två månader eller, om statistik saknas, tre månader före den månad då begäran framförs om överläggningar avseende aktuell vara med ursprung i den andra avtalsslutande staten.

Inte i något fall kan den tidigare nämnda säkerhetsmekanismen åberopas eller de åtgärder som vidtagits i enlighet med denna tillämpas efter det att den tidpunkt för avskaffande av alla kvantitativa restriktioner och åtgärder med motsvarande verkan på handeln med textilier mellan Ungern och Europeiska ekonomiska gemenskapen, vilken fastställts i nämnda protokoll mellan Ungern och Europeiska ekonomiska gemenskapen, har utlöpt.

EFTA-staterna och Ungern är vidare överens om att icke-tariffära handelshinder under inga omständigheter skall tillämpas på handeln med textilvaror mellan EFTA-staterna och Ungern efter den övergångsperiod som anges i artikel 1 i detta avtal.

På begäran av en avtalsslutande stat, skall samråd om problem i samband med handeln med textil- och konfektionsvaror, äga rum utan dröjsmål.

19. Om oenighet råder beträffande det faktiska värdet av importerade industrivaror som anges i artikel 23, punkt 3, skall internationell handelsstatistik, sådan som FN/ECE:s, GATT:s och OECD:s statistik, tjäna som utgångspunkt.

20. EFTA-staterna och Ungern anser att ett skiljeförfarande skulle kunna tillämpas vid tvister som inte kan biläggas genom samråd mellan de berörda avtalsslutande parterna eller i Gemensamma kommittén. En sådan möjlighet, bland annat vad gäller artikel 19, kommer att studeras närmare i Gemensamma kommittén.

21. De avtalsslutande staterna skall, i enlighet med Allmänna tull- och handelsavtalet, i synnerhet artikel I, och de protokoll, bilagor och överenskommelser som hänför sig till detta och är tillämpliga mellan de avtalsslutande staterna, tillse att från och med detta avtals ikraftträdande åtgärder inte skall tillämpas på ett diskriminerande sätt gentemot någon avtalsslutande stat, vad avser bestämmelser, regler och formaliteter hänförliga till import och export, inbegripet importlicensförfaranden.

22. Med beaktande av utvecklingen i andra internationella fora och i deras respektive relationer med Europeiska gemenskaperna och med hänsyn till den ökande vikten av områden nära relaterade till varuhandeln kommer EFTA-staterna och Ungern att, i ett lämpligt forum bland de berörda avtalsslutande staterna, periodvis diskutera möjligheterna att utvidga sina ekonomiska relationer till områden utanför varuhandeln. De avtalsslutande staterna kommer omedelbart att underrätta varandra om utvecklingen inom detta område, särskilt den som ägt rum i relationerna med Europeiska gemenskaperna.
